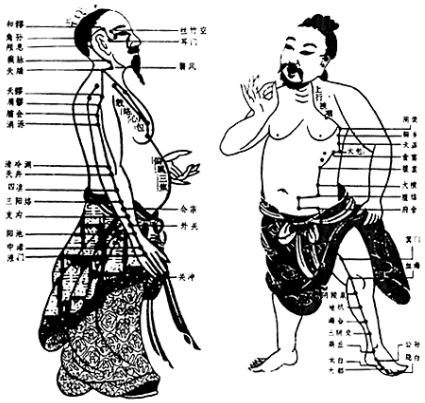
PRACTICAL ACUPUNCTURE ASSISTANT PROGRAM
eLEARNING



The Certified Acupuncture Assistant Program combines studies in basic health science courses (anatomy, physiology, kinesiology, pathology and chemistry) with core courses in holistic, herbal, and nutritional medicine, and along with acupuncture and massage therapy. Naturopaths work with clients on personal wellness, health promotion, illness prevention, and in cooperation with other health care professionals for the care of patients with medically diagnosed illness and disease.

Acupuncturists work in hospitals, medical clinics, holistic health care centers, chiropractic offices, medical health spas, and as private practice consultants.

Students that complete the Acupuncture Certified Assistant Program receive a diploma from the Blue Heron Academy of Healing Arts and Sciences, a state license post secondary school.
